# QUALITY POLICY

## BERARDI GROUP

### OUR MISSION: TO BECOME ALL-ROUND PARTNERS

Our mission is to help our customers reduce their total procurement costs through technical solutions and innovative services that reduce management costs, and expanding our range of products, which allows them to reduce the number of suppliers. We are also committed to constantly creating new job opportunities, as well as adequate and comfortable working conditions that enhance the individual characteristics of each employee, resulting in personal satisfaction and encouraging maximum i

### OUR VISION

To be the leading provider of 360° services to support industrial companies in the technical and logistical management of all C-parts involved in their production process, systematically expanding our product portfolio.

### QUALITY WITHOUT COMPROMISE

"Quality without compromise" is not just a slogan: it has been the company's credo since its foundation. The starting point for minimizing the risk of product defects is undoubtedly selection of the best supply sources, which we obtain through audits by qualified personnel and a deep knowledge of our suppliers. On top of that, we have a state-of-the-art quality laboratory, which we constantly improve with new equipment and specific training for the staff, in view of evolving customer needs and the development of innovative technologies.

### ISO 9001 CERTIFICATION

The ISO 9001 certification is a driving force for the continuous improvement of our quality management system, and it represents our commitment to meeting its applicable requirements.

Best regards,

Marco Latini  
Quality Manager Berardi Group
